

In the beginning was God  
The Creator of all that is good  
The Creator of Love  
We know him to be an Omnipotent God and Awesome  
And yet we are privileged to call him Father  
He is a fair and just God  
And above all he loves all that he has made  
He loves us his children  
Our families  
Our neighbours and friends  
And those people we find it impossible to count as friends

In Love he gave us his most treasured gift  
His beloved son Jesus  
Jesus was God Incarnate  
Through his Son God was able to walk amongst us on this earth  
He came to show us what love is really about  
It's about sharing the love God has given us  
Sharing love one to another  
Jesus has enabled us to see God as we sit at the feet of a humble carpenter  
His words tell us more about the name God calls himself  
I AM  
We learn to accept him as the Bread of Life which we need each day to  
sustain our life with him  
We learn to trust him with our lives as he teaches us that he is the good  
shepherd  
He comes to find us when we are lost  
He encircles us with his love and brings us back to life even

Jesus our Lord is King  
But he also came as a servant  
Serving those who were often called the outcast in society  
He teaches us to copy his righteousness  
To show love to those we walk with who are lonely, sad, depressed, or  
homeless  
When we show compassion to people such as these we minister to God  
Each helping hand kind word or encouraging smile  
Is our praise to the Father  
We learn to call him Abba and he listens  
And in response he pours the gift of peace into our hearts  
He waits for us today to meet us as never before to cover and surround us  
with his love  
Because we are his children  
He listens to our worries and joys and focus' us with his eyes  
His eyes pierce our very soul

They are the eyes of the man who came from Nazareth  
Jesus, who walked with similar people to ourselves  
Some who loved him  
Some who ignored him  
Some who spurned him

When we are at our darkest hour  
We are never alone  
Not today, or any time in the future  
For we are His  
Our Father has many gifts for us  
Reach out today, for one of those special gifts  
That gift which is special to you from him  
A unique gift to his unique child  
We only have to ask  
And the Helper  
The Holy Spirit will come and fill our hearts with His love  
The Lord our God comes to us in all aspects of our daily life  
Our lives are blessed with the beings of the Trinity

Jesus, gave his life for us, by dying on a cruel cross  
His pain has made it possible to release us from our sins, through his great  
cleansing power  
At our death our faith will lead us on to Eternal life  
We will walk towards Him, who is I AM  
Jesus the Beloved Son and the Holy Spirit  
Imagine the great home coming for each one of us  
What joy what praise there will be.

(A simple meditation for our special friends from St Paul's who mean so much  
to us )
